PRELIMINARY

Community Service Program (KKN) is a community service activities by students with cross-scientific and sectoral approaches at times and certain areas in Indonesia. The implementation of Community Service Program usually lasts between one and two months and takes place at village level areas. Because now the Covid-19 Pandemic is still ongoing in Indonesia, the Padang State University campus has adopted a policy for students of class 2017 to carry out the Covid-19 Online Community Service. The Covid-19 Community Service Online at Padang State University is part of the educational process which is expected so that students can contribute to the problems of the community affected by the Covid-19 Pandemic and aim to help the community during the current Covid-19 Pandemic.

Community Service Program is one of the compulsory courses at Padang State University in accordance with government policies and the leadership of Padang State University, then KKN is also carried out in their respective regions. Which KKN is usually carried out in areas that have been determined by the campus and now during the pandemic period it is directed to carry out KKN in the domicile Nagari or Nagari of origin where the student is located.

Covid-19 Online Community Service was held from 23 June to 24 July 2020 or approximately one month located in Wali Nagari Preparation Sigunanti, Nagari Kinali, Kinali District, West Pasaman Regency. In West Pasaman Regency, especially Nagari Kinali, including the Green Zone area during the Covid-19 Pandemic. The people in Nagari Kinali always remain vigilant and follow health protocols even though they are included in the Green Zone or Safe Zone. The Jorong Sigunanti area is one of the areas located in Kenagarian Kinali, Kinali District, West Pasaman Regency. Where this area is at this time can be said to be the Green Zone area of the Covid-19 Pandemic. This is the cause of the lack of public awareness of implementing health protocols.

as before without running it with health protocols according to the views of the surrounding community. The community does not understand the meaning of the New Normal rule itself. The purpose of New Normal is a change in behavior or habits to continue carrying out activities as usual but always implementing health protocols in the midst of the Covid-19 pandemic.

All office activities are already active as usual. Businesses have reopened, religious sites have been re-established. But for schools students still carry out the learning process at home but teachers still have to be present at school. For kindergarten level teachers go to students' homes to introduce and provide approaches to students as well as give students exercises to do at home with guidance from parents. For the elementary and junior high school levels, every week students pick up assignments to school and do assignments at home, schedule their assignments per week. Whereas for the high school level learning is only done online and all assignments are also in online form but the teacher still goes to school as usual.

In carrying out Covid-19 Community Service Online activities at Wali Nagari Preparation in Sigunanti, Nagari Kinali, Kinali District, West Pasaman Regency. We socialize to the public about Covid-19, many things that were done by Headman Persiapan of Siguananti, including spraying disinfectants, distributing masks, and so on. In this New Normal era, the people in Headman Persiapan Sigunanti continue to do their usual activities but still prioritize health protocols even though the Siguananti hamlet area is in the safe zone category but in the context of prevention it is still recommended to wear masks and maintain distance and avoid hassles.

In addition, the Covid 19 Community Service Online activities that we carry out, we participate in collecting data on people who get Direct Cash Assistance (BLT) at Sigunanti hamlet, Kinali urban Village, and collecting data on the elderly or elderly people and also distributing assistance to the community in Sigunanti hamlet. This activity aims to reduce the burden on the community in the middle

the ongoing Covid-19 pandemic. With this activity we also get a lot of interesting lessons and experiences when interacting with the community. And we also assist the community in clearing the road to get to the workplaces of the Sigunanti community, as well as places to access tourist access in Sigunanti hamlet, Kinali village, Kinali District, West Pasaman Regency.

DESCRIPTION OF ACTIVITIES

A. Activities Performed

During the community Service Program (KKN) activities at headman of Persiapan Sigunanti, many activities are carried out, the activities carried out every week are usually every Monday all community Service Program students in Kinali village conduct ceremonies or morning apples at the headman of Kinali office with all the village equipment. at the same time with community Service Program students from various universities, including Padang State University, IAIN Bukittinggi, Andalas University and Riau State University. And the Coffee Morning activity which is carried out every Friday morning is followed by all community Service Program students in Kenagarian Kinali. As well as many other activities carried out by community Service Program students in order to help the Headman apparatus in activities at the headman Office for Persiapan Sigunant. Various educational activities were carried out to remind the public's concern to continue implementing health protocols and maintaining their health. The various problems faced need to be resolved. Therefore, we compiled various work programs in Kinali village, especially in Sigunanti hamlet.

Headman of Persiapan Siguananti is a Green Zone or Safe Zone from Covid-19 so the community Service Program activities carried out here are more focused on preventing the transmission of Covid-19. The precautionary steps that are taken include informing the public to always use masks when doing activities outside the home, and always keeping their distance and avoiding crowds. As well as assisting the Regent of Sigunanti to serve the community in composing correspondence and making community data in Siguananti hamlet. Volunteering to help Puskesmas fill in daily data on puskesmas patients, as well as helping doctors and puskesmas officers in managing correspondence that can be done by student's community Service Program.

In carrying out the community Service Program at the headman of Persiapan Sigunanti, Kinali village, we have several work programs, which include:

1. Clean up the community to avoid Covid-19. Environmental cleaning activities or mutual cooperation by

Community Service Program students with the youth and the community of Jorong Sigunanti. The activities carried out are helping the community to improve road access in order to facilitate community activities in farming, gardening and releasing agricultural products. By improving road access, it will automatically improve the economy of the local community during the Covid-19 Pandemic. And the opening of tourist objects and making road routes to tourist objects in Sigunanti hamlet, this activity aims to explore natural potential and is also expected to improve the economy of the local community. Student's community Service Program also work together to clean the Grand Mosque in Sigunanti hamlet, Kinali Village, Kinali District, West Pasaman Regency.

2. Disinfectant spraying.

In this activity, we sprayed in public places and places of worship located in Sigunanti hamlet, Kinali village, Kinali District, West Pasaman Regency. Before doing the spraying, we asked the Youth Leader in the village of Sigunanti and Garim Mesjid there to do this disinfectant coating. Spraying of disinfectants is carried out in public places and around the mosque area. It is hoped that this spraying will be carried out as a precautionary measure to prevent the spread of the Corona Virus (Covid-19). This activity is a form of effort to provide protection for health and safety for the community.

3. Data collection of aid recipients during the Covid-19 pandemic.

The data collection activity for the community receiving this assistance is a program from the Office Guardian of Persiapan Sigunanti, Kinali village, community Service Program students who are in Sigunanti hamlet in collaboration with the headman Preparation to assist in collecting data on the houses of the recipient community of the aid. This assistance is in the form of direct cash assistance (BLT) and assistance for the elderly or elderly people. This assistance is aimed at the poor, chronically ill people for years, and people who lost their jobs because of the Covid-19 Pandemic in Sigunanti hamlet, Nagari Village, Kacamatan district, West Pasaman Regency.

4. Distribution of aid to people affected by Covid-19.

After collecting data on aid recipient communities during the Covid-19 pandemic, we provided assistance to the houses of beneficiary communities and were assisted by the Wali Nagari Preparation of Sigunanti. This assistance is assistance to the elderly or elderly people in the form of rice. The people who receive it really need it in Kejorong Sigunanti, Nagari Kinali, Kinali District, West Pasaman Regency.

5. Handsanitizer making.

The activity of making Handsanitizers which was carried out naturally by the Sigunanti KKN Students in the Kinali district, we made the Handsanitizer at the home of one of the KKN students, the Handsanitizer was made from natural ingredients, without any additional mixed ingredients such as alcohol, the ingredients needed were betel leaf, tongue crocodile, and lime and the bottle where the Handsanitizer will be. then we do the processing of making this Handsanitizer, after the Handsanitizer processing is finished we try to feel the hands for making this natural Handsanitizer. Next, we put the finished Handsanitizer into the bottle provided by the KKN students. We share this Handsanitizer

to the Wali Nagari Preparation of Sigunanti and to the people of Sigunanti. This handsanitizer is urgently needed at the Wali Nagari Office of Persipan Sigunanti to be used by the public who come to the Sigunanti Preparation Wali Nagari office.

6. Recovery in people's economic income during the Covid-19 pandemic.

The counseling was held from the West Pasaman Regency Fisheries Service and was attended by the Sigunanti Preparatory Nagari Apparatus, the Jorong Sigunanti Community and the Sigunanti KKN Students, in order to improve the community economy in Kejorongan Sigunanti, Nagari Kinali, Kinali District, West Pasaman Regency. Due to being pushed forward, there are many empty fields of society to be used as places of business. As well as teaching the community how to manage fish properly in order to improve the economy of the people of Sigunanti.

B. The achievements of each activity

The KKN activities carried out at Wali Nagari Sigunanti Preparations all went smoothly without any significant obstacles. This achievement was proven by the positive response from the Wali Nagari community of Sigunanti Preparations from every activity carried out.

1. Clean up the community to avoid Covid-19.

This environmental cleaning activity is carried out to help the community improve road access in order to facilitate community activities in farming, gardening and opening tourist objects as well as making road routes to tourist objects in Kejorongan Sigunanti, aiming to explore natural potential and be able to improve the local community's economy, as well as cleaning The mosque in Kejorongan Sigunanti is always clean and the congregation is comfortable to worship.

This cleaning activity went smoothly, the community made it easy to get the results out of their respective gardens, and the opening of the road route succeeded in attracting the interest of the outside community to visit tours in Wali Nagari Persipan Siguananti, Ngari Kinali.

2. Disinfectant spraying.

This disinfectant spraying activity was successfully carried out, this disinfectant spraying was carried out around the mosque area. It is hoped that this spraying is carried out as a precautionary measure in preventing the spread of the Corona Virus (Covid-19) and can provide protection for health and safety for the community.

3. Data collection of aid recipients during the Covid-19 pandemic. Data collection of aid recipients during the Covid-pandemic

19 runs smoothly, in this data collection it is in accordance with the field conditions found, the people recorded are indeed underprivileged people, people are chronically ill for years and people have lost their jobs due to the Covid-19 pandemic

4. Distribution of aid to people affected by Covid-19.

Assistance distribution activities to communities affected by Covid-19 carried out well and smoothly, the distribution of assistance to the community was carried out by KKN students directly delivering to the recipient's house of the community, and received directly by the community concerned.

5. Handsanitizer making.

The activity of making this Handsanitizer is made from natural ingredients such as: Betel leaf, Aloe vera flower and lime. In this process, it is processed naturally and cooked without any alcohol mixture. After the manufacturing process is complete, it is immediately packed into bottles that have been provided, and the results obtained are very well used by the community.

This Handsanitizer making activity went smoothly, without any obstacles. This handsanitizer aims to be used by the community to avoid germs and viruses on hand.

6. Recovery in people's economic income during the Covid-19 pandemic.

This extension activity is going well and as desired, this extension is very useful for the people of Sigunanti in order to improve the economy of the community in Jorong Sigunanti, as well as teach the community to manage fish properly so that they can improve the community's economy during the Covid-19 Pandemic.

C. Constraints faced.

In general, the obstacles faced by KKN Students in Jorong Sigunanti in the Covid-19 Online Real Work Lecture activities are the lack of public awareness of continuing to carry out the prescribed health protocol. The community has not all implemented health protocols. Some of the education carried out or outreach to the community has only been partially ignored, as well as limited funding is one of the obstacles for KKN students in Jorong Sigunanti to be able to provide the facilities needed by all the people of Jorong Sigunanti, Nagari Kinali, Kinali District, West Pasaman Regency.

D. Solution given.

As students who become an arena of change for the community Students must continue to try to educate the public about health protocols. Students work together with the local government to always provide education to the community even though sometimes it's just ignored and if it's done regularly, community awareness can increase Community service students together with the local government also try to facilitate the community in carrying out health protocol.

CONCLUSIONS AND SUGGESTIONS

A. Conclusion

Implementation of the Covid-19 Online community Service Program (KKN) by Padang State University at hamlet of Persiapan Sigunanti, Kinali village, Kinali District, West Pasaman Regency, starting from June 23 to July 24, 2020, went smoothly and well. The programs that have been carried out in this activity are in accordance with the objectives of the Padang State University. In this activity, community participation and support is quite high, where the community responds very well to the implementation activities of the work program that we run in Sigunanti hamlet, village of Kinali.

Even though the Covid-19 Online Community Service program activities in Sigunanti hamlet, Kinali village have been running smoothly and as they should, there are several obstacles and obstacles in carrying out activities, such as recording data at people's homes for community assistance that has an impact on Covid-19, many of the community those who do not understand this assistance, and people who are able to also ask whether the person is worthy even though the surrounding community must understand the condition of the community during the Covid-19 pandemic in Sigunanti hamlet, Kinali village.

Hopefully, the various work programs in this Community Service Program can provide many benefits for Covid-19 Online Student's community Service Program in Sigunanti hamlet, Kinali village, and the Sigunanti community in overcoming the prevention of Covid-19. And it is hoped that this pandemic will pass quickly.

B. Suggestion

For Students:

1. Improve kinship and socialization to the community.
2. Further improve self-discipline in Covid-19 Online Student's community Service Program activities.
3. Establish good cooperation between Covid-19 Online Student's community Service Program.

For the Community:

The Village of Kinali's community do not implementation health protocols. To prevent the spread of Covid-19 in the Kinali area, especially in Sigunanti hamlet, people should always carry out activities by always using health protocols. We recommend that you always use a mask when going out of the house, be diligent in washing your hands using a Handsanitizer before and after activities and always keep your distance. This health protocol is very useful in efforts to prevent the spread of Covid-19. It is hoped that the local government will always monitor the community and provide health protocol facilities to those who need it.
